Alex Carfrae Out of the Race.

Alex Carfrae, who was nominated on the Republican ticket for the school board from the First ward, has withdrawn in favor of James Fee. Mr. Carfrae has served two years on the board and as his business requires his entire attention, he decided to allow Mr. Fee to succeed him in office. The last named man is well and favorably known and will make an excellent officer if elected. He has lived in the city for years and is one of the most prominent labor men in the First ward. He is also a member of the United Presbyterian church and is a prominent lodge man.

A Few Facts That Voters Should Renember When They March Up to the Polls to Cast Their Votes on Tuesday Next.

A glance by the voters of this city at the ticket put up by the opposition to the Re-publican party to be voted on at the coming city election will soon convince the taxpayer that his only hope is to vote the Republican ticket from top to bottom. William W. Rose, the so-called fusion nom-Republican ticket from top to bottom. William W. Rose, the so-called fusion nominee for mayor, is an architect, whose business is almost wholly confined to the Missouri side of the line, and whose office to fis candidacy for mayor is said to be to force Governor Leedy to appoint him state architect, for which position he has been a persistent applicant since the victory of the Populist forces last fall. Mr. Rose is probably fully aware that he stands no chance of being successful as a mayoralty candidate, but hopes to receive the state appointment as a salve for his default in the interest of his party or parties.

R. C. Foster, the candidate on the same ticket for city clerk, has just been relieved from a four years job as commissioner of elections, being replaced by his oid-time "friend," S. S. King. Foster imagines the people of this city owe him a living, and is no sooner out of one office than he is a candidate for another. His opponent is George Yeager, a prominent labor man of the city, who has never held public office, and whohas not made a record as a chronic office-seeker.

The candidate of the most prominent labor men in the First ward. He is also a member of the United Presbyterian church and is a prominent ichge man.

Harry Darby, 515 Freeman avenue, stable broken into and harness stolen.

Harry Darby, 515 Freeman avenue, reports harness stolen.

J. B. Arnett, of 1032 Waverly avenue, reports that theves took the front wheels off his wagon and carried them away.

The goods that were stolen from Richard McClain's store on Walker avenue a few inghts ago were recovered yesterday in a vacant house on New Jersey avenue. Dave Shephera has been arrested on suspicion of being the robber.

The candidate of the persistent offices ing crowd for city treasurer is J. W. guson, the present incumbent, who, by the grace of the Republican party, has held this office for four years, and who only last fall was a candidate before the Republican fall was a candidate before the Republican convention for county treasurer. After being turned down there by the men who thought he had been sufficiently rewarded for all services ever rendered the party bim, he left the party which had done so much for him and espoused the cause of the fusionists. The people will, without doubt, reward him for his treachery by electing John A. Adams, who will spend his time with the affairs of the city instead of making free silver speeches on every

time with the affairs of the city instead of making free silver speeches on every occasion that presents itself.

Dan Mollison, the "crowd's" candidate for city attorney, will probably receive but few votes, as opposed to him is popular Thomas Pollock, who has well served the city during his one term in that office.

Mr. Rose may be able to induce Governor Leedy to present him an office, but the voters of Kansas City, Kas., prefer Robert L. Marshman for mayor, who only wants voters of Kansas City, Kas., prefer Robert L. Marshman for mayor, who only wants one office at a time.

FOR A POPULIST DAILY.

Plan to Purchase the Old Tribune Plant and Make a Red Hot Plutoernt Skinning Sheet.

It was whispered about yesterday in Populist circles that a move was on foot among the members of fusion forces in this city to buy up the Kansas City Tribune and convert it into a Populist daily. It is understood that the plant of the Tribune company will be sold under an order of the common pleus court within the next two weeks, and it will in all probability be bought in by a Populist combination composed of local Populist and Democratic leaders. The scheme will not be consummated unless the fusion ticket should happen to win at the election next Tuesday, for, if it is defeated, there will be no chance for them to plunder the public purse under the protection of an official paper. It has been intimated that the gamblers of this city, who expect to see two years of prosperity under Governor Leedy's administration, have volunteered to purchase the plant for these men and make the administration a present of the same. was whispered about yesterday in Pop-

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it was supposed to contain cocaine, optum, or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, optum, or in fact any poisonous, injurious drugs whatever. Sold by druggists at 50 cents per package.

of Missouri.

"We have gotten up a scheme to get Chief Julian out of office without giving him a trial or running the risk of being stopped by an injunction or putting the compelled to pay him for the full length of time for which he was commissioned,' said one of the bosses of the anti-Brown faction yesterday.

"The scheme is this," he continued. "At the next meeting of the police board, if

Another boss of the anti-Brown faction Another boss of the anti-brown metion said that Julian would not be reduced to a subordinate position, but would be dismissed from the force after a trial before the board upon charges to be preferred against him. The public can choose between these conflicting statements.

The action of Commissioner Gregory yesterday in refusing to vote for James B. McGowan for chief of police upset the calculations of many of the men who have been busily engaged for several days in picking out candidates for this important office. Scon after learning that he could not get the vote of Commissioner Gregory, Mr. McGowan announced that he had decided to withdraw from the race. Later in the day it was rumored that Commissioners Scarritt and Gregory had held a caucus and decided to appoint Thomas N. Vallins, superintendent of the Kansas City branch of the Finkerton agency, chief.

When asked concerning this rumor, Mr. Gregory declined to either confirm or deny it. Mr. Scarritt was subsequently seen and asked if he and Commissioner Gregory had decided to appoint Mr. Vallins. While he did not deny outright the truth of the rumor, he sought to convey the impression that he had not entered into an agreement with the other commissioner to appoint Mr. Vallins or any other man to the office of chief of police. He said:

"I am going to consider every man whom I deem qualified for this position, and I will The action of Commissioner Gregory

endeavor to select the best man. At the present time I am wholly unable to state the name of the man who will be selected for chief. I am personally acquainted with Coionel Gross, James McGowan, 'Whig' Keshlear and Captain Minter. I have known them nearly all my life, and I have known Mr. Vallins during most of the time that he has been a resident of this city. I also know several other gentlemen who have been suggested.

"I have not known that Mr. Vailins was an applicant for this position, nor that he was in a position to accept it if his services were desired by the board. At this time I am unable to say whether the chief of police will be one of the gentlemen name, or some other man whose name has not yet been suggested. lice will be one of the gentlemen nameû or some other man whose name has not yet been suggested. I would like, however, my friends and the people generally to under-stand that the man for whom I shall vote for the office of chief of police will be the one whom my deliberate judgment shall determine is the best qualified for the place after a careful investigation of his entire record as a man."

Notwithstanding Mr. Scarritt's statements here given, it was said last night by persons who are very close to him that Mr. Vallins had been selected by Mr. Gregory and himself as the successor of Chief Julian and that the appointment would be made at the meeting to be held on Saturday afternoon. It was also said that the two commissioners had decided to make Detective John Hayes inspector of detectives, and to reduce Inspector of detectives, and to reduce Inspector Flankve to the rank of captain. These people evidently know what is going on in the inner circle that is engaged in fixing up the police slate and unless there is anotaer unexpected change in the situation, the programme here given will be carried out programme here given will be carried out next Saturday afternoon. in favor of appointing Mr. McGowan and he believed that Commissioner Gregory would join with him in doing so, but in this he was mistaken. Mr. Gregory told Mr. Scarritt at a caucus held by them yesterday that he wanted to make Mr. Vallins chief. Mr. Scarritt demurred as long as he thought there was a chance to incue Mr. Gregory to agree to vote for Mr. McGowan. He then, it is said, agreed to join with Mr. Gregory in appointing Mr. Vallins.

Mr. McLown. He then, it is said, are relatively a state of the state only in appointing Mr. Mr. Valline & new the state only since has talendary when he succeeded the late Thomas G. "Can Mr. Vallins, not being a voter in Missouri, hold the office to which it is said the board intends to appoint him of the state when he left at any place within that state with intends to appoint ment upon the police orecand to the state of t rule over the people."

While some of the friends of James B. McGowan are sore because of the action of Mr. Gregory in refusing to vote for him and forcing him out of the race, he does not seem to regret the unexpected turn in the tide of his affairs. He said yesterday that while he believed he stood a good chance to be appointed chief, he was willing to accept the effice; but as soon as he learned that he was likely to be knocked out when the vote was taken by the two commissioners and the mayor upon the candidates for the office he decided to withdraw. He has a good position with his brother, Hugh J. McGowan, who is superintendent of the Barber Asphalt Paving Company, and is content to remain there. Mr. McGowan's appointment would have been satisfactory to a large number of the people of Kansas City. He was born in Clay county and has lived in this city for ten years. Six years of this time he spent upon the police force and as a deputy county marshal. Thomas N. Vallins, whom it is proposed to make chief, was assistant superintendent in the Chicago office of the Pinkerton agency. He has been with the agency since he was ten years of age, except five years that he spent at college. He is now 23 years of age. He has a well established reputation as a shrewd and successful third taker.

INDEPENDENCE.

The City Moves in the Matter of Collecting the License Tax Recently Imposed.

The city has commenced another crusade in an effort to collect the license tax re-cently imposed on merchants. Many of the merchants have paid up, but some of the Kansas City laundries, who were taxed \$15 per annum, propose to test the law. Yes-terday Woolf Bros.' laundry agent in this city was placed under arrest. Bond was given promptly and the case will, with other cases, go up to the criminal court for final settlement. It was reported yes-terday that the general tax of \$5 had, in many cases, been paid up.

A courier was sent out to the water tower to wake up the engineer, but by the time pressure was secured the home was in ruins. But little of the household effects were sayed.

ruins. But little of the household effects were saved.

All of the property of Colonel A. W. Jones which was stored away in a part of the house was destroyed by lire. The lack of fire pressure, it was stated yesterday, was due to the electrical signal to the tower being out of order. The origin of the fire is not known positively, although it was laid to electric light wires. The wires have been "dead" for over a year. The residence was of brick and the property has been in litigation for over a year, the International Loan and Trust Company claiming to be the owner. The loss is estimated at \$6,000. The insurance on the property was held by Kansas City parties.

The Lee's Summit road, which the county court recently ordered improved, has raised something of a hornet's nest among farmers interested. The county court called for surveys and Mr. Callahan submitted that it was cheaper to macamadize and grade the proposed new route than the old road, which has been traveled for years. The new route reaching to Lee's Summit is longer but costs less money, so says Surveyor Callahan. The estimate on this road was \$25.990 and for the old road \$25.83.50. The farmers are not satisfied and will get a competent engineer to survey the old road and make estimates.

The principal address of the evening was by Dr. Garrett Newkirk, of Chicago, which occupied three-quarters of an hour. Dr. Newkirk took for his subject. "Some Conditions of Professional Success." "Success," said the doctor, "is not merely money, notoriety or fame. A reputation is not worth much which does not stand the test of years. One of the principal conditions of success is patience. The more patience you have the more patients you will have. Do not yield to discouragement. There is always one place where you can find sympathy—in the dictionary.

"You must keep good health. You must keep clean. Do not have a gaudily fitted up office. A nail brush and plenty of soap will win you the respect of the sensible sooner than a Brussels carpet and a grand plano.

"You must be punctual. Steal your patient's time no sooner than you would his money. Keep in touch with your profession; keep up your association with your fellow dentists and particulariy with physicians. Go it alone. Don't form partnerships. Don't send itemized bills, but render them for professional services. Improve your time, for during the first few years you will have little else."

Because he did not have money one of them struck him a blow in the face, felling him to the ground. They then took to their heels and escaped. Nowok, all covered with blocd, centinued on his way and met Captain Parker, of the Second precinct police.

Box and Leaves It in an Access-Ible Spot for Thieves.

E. J. Stewart, proprietor of the Star boarding house at 1505 Grand avenue, mourns the loss of \$300, in gold and green-backs, which was stolen from his house either Tuesday night or yesterday. He kept either Tuesday night or yesterday. He kept the money in a box which he used as a door weight in his front hallway. When Mr. Stewart went to look for his box yesterday it had disappeared. As it contained his savings of many months Mr. Stewart was nearly distracted. He posted off to police headquarters where he reported his loss. The police made an investigation, but could find no clue to the thief.

********** MUSIC AND THE DRAMA.

has developed in relation to Kansas City dramatic or musical interests for a long time is the announcement that Teresa Carreno, the celebrated planist, will be heard in this city in May-probably the 14th-at the Coates opera house. The coming of Carreno should be like the first coming of Paderewski. She is undoubtedly the greatest living woman pianist. Her powers of technique have confounded the critics and her effect upon her audiences has no equal in current musical events. During her engagement in Chicago this season her audiences were wildly demonstrative. On two occasions they would not leave the Auditorium until the lights were turned out. When it is remembered that Carreno is a plain, unaffected and thoroughly womanly woman, who has no tricks nor fads at her hievements in a popular way are all the more wonderful. Her appearance here will be a memorable event in the musical his-

tory of this city.

blocd, continued on his way and met Captain Parker, of the Second precinct police, at Ninth and Hickory streets. He was so overcome with joy at seeing the captain that he fell on his knees in tears before him and made an effort to kiss his hand. This is a custom in Russia among the poorer classes, but was a new wrinkle on Captain Parker, who took Nowok to the station house, where, by the and of an interpreter he learned his story. The captain sent an officer out with the unfortunate foreigner, but the assallants were not located. Nowok arrived in Kanasa City yesterday from Galveston, having walked all the way.

SHE HEARD THE THIEF.

Detective O'Hare Makes a Capture by Responding to a Frightened Woman's Scream.

While Mrs. Jonatham Hays, wife of a workhouse guhrd, living at 1765 Euclid avenue, was at breakfast yesterday morning, she heard a noise as if some one was moving about in an adjoining room. Thinking a burglar was in the house, Mrs. Hays began to scream at the top of her voice. Detective Andy O'Hare, who lives next door heard Mrs. Hays yell, and jumping up from his breakfast table ran into her house. In the sitting room the detective found a colored boy crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by crouching behind a chair, He attempted to get away, but Detective found a colored by colored by colore

The Tannehill-Martinettl Company in "The Nancy Hanks" will follow "Too Much Johnson" at the Grand. The company is said to be a most accomplished one and the comedy promises to be lively enough to overcome all tendencies to spring fever. The attraction has been playing in St. Louis this week and has met with great favor.

The engagement of the High School Glee Club in "The Mikado" will begin at the Auditorium to-night. The delightful and always popular opera is said to be in excellent rehearsal, and although four performances are to be given, a large attendance is expected throughout the engagement.
